PROFILE

Energetic and data-driven recent graduate with 1 year experience and passion for all things data. My education in B Tech Computer Science &Engineering Specialized in Data Science and Big Data Analytics has equipped me with a solid foundation in data analysis, machine learning, and programming. I'm eager to embark on my journey as a Data Scientist and contribute my enthusiasm, problem-solving skills, and fresh perspectives to cutting-edge projects.

EMPLOYMENT HISTORY

Freelancer, Data Science and Big Data Projects

May 2021 — Present

As a freelance data analyst, I am currently,

- Gathering and interpreting data from various sources.
- Cleaning and organizing data to ensure accuracy and reliability.
- Analyzing data using statistical techniques and visualization tools.
- Creating reports and presentations to communicate findings to clients or stakeholders.
- Collaborating with clients to understand their data needs and objectives.
- Developing and implementing data-driven solutions to address business challenges.
- Providing insights and recommendations based on data analysis.
- Continuously learning and staying updated on new analytical tools and techniques.
- Managing project timelines and deliverables effectively.
- Ensuring confidentiality and security of sensitive data.

Tools Used- Power BI,Python,MachineLearning,Excel

Data Analyst, Care Quality Hospitals   Hyderabad,India

Apr 2023 — Apr 2024

As Data Analyst in General Service Department my responsibilities were,

- Analyzing patient data to identify trends, patterns, and insights that can improve patient care and operational efficiency.
- Creating and maintaining databases to store and organize healthcare data, including electronic health records (EHRs) and administrative data.
- Generating reports and dashboards to communicate findings to healthcare providers, administrators, and other stakeholders.
- Collaborating with clinical teams to develop data-driven strategies for patient care, disease management, and prevention.
- Conducting quality assurance checks to ensure the accuracy and integrity of healthcare data.
- Supporting research projects by providing data analysis and statistical expertise.
- Staying current with healthcare regulations and standards related to data privacy, security, and reporting requirements.
- Participating in interdisciplinary teams to address complex healthcare challenges and improve outcomes.

- Utilizing data visualization tools and techniques to present information in a clear and understandable manner.
- Contributing to the development and implementation of data-driven decision-making processes within the hospital.

Cyber Security Virtual Internahip, Cisco Networking   India
Jan 2021 — Apr 2021

Completed Cisco Networking Foundational Course

EDUCATION

B.Tech in Computer Science Engineering with specializion in Data Science and Bog Data Analytics, Koneru Lakshmaiah Education Foundation   Andhra Pradesh,India
Jun 2019 — Dec 2023

Diving deep into data science, I honed my skills in data analysis, machine learning, and statistical methods. My coursework covered Data Analysis,Machine Learning,Statistics,Programming and Data Visualization, equipping me with the tools needed for real-world problem-solving.

Intermediate School, Telagana State Board Intermediate   Hyderabad,India
Jun 2017 — Jun 2019

Higher Secondary School

School, International Indian School ,Jeddah   Jeddah,Saudi Arabia
Apr 2004 — Apr 2016

KG-Xth

COURSES

Certified PowerBi Associate(PL-300), Microsoft

Certified Cloud Practitioner, AWS

Data Analytics Essentials, Cisco

Certified Data Scientist Associate (DP-100), Microsoft

Azure Data Fundamentals(DP-900), Microsoft

PROJECTS

Business and Data Analytics

Has Done multiple projects in creating powerful dashboards using power bi and data analytics using python and machine learning algorithms

To see all my projects please visit on my github portfolio web url attached link

PUBLICATION

Fully Homomorphic Encryption for Data Security Over Cloud

IEEE PAPER/ARTICLE/REPORT Publication
